RICOH

PRODUCTION PRINTING

Mono and colour cutsheet solutions for the CRD, In Plant, Print-for-Pay and Commercial Print markets.

Pro 8300S / Pro 8310S/ Pro 8320S

The new Ricoh Pro 8320S/8310S delivers exactly what your competitive environment demands. And more besides. Our printers offer impressive black and white speeds for high document volume at up to 136ppm. Robust design that stands the test of time with auto recovery to minimise downtime and maximise your turnaround time and large operation panel for simple usability. The brand new range of automated high-end finishing options gives you even greater versatility to capture more business from speciality books to professional bids and manuals.

- New higher finishing capability
- Enhanced productivity
- Better reliability
- Simpler to use

B&W Print: 96/111/136 PPM
Resolution: 2,400 x 4,800 dpi

Colour Print: 65, 80 PPM
Resolution:
Scan: 600 x 600 dpi | Print: Max 1200 x 4800 dpi VCSEL

Pro™ C5200s / Pro™ C5210s

Today demands in print have been diversified – faster delivery, shorter run lengths and lower costs. You need a machine with innovative technology that helps you reduce operation costs and boost performance even more than ever.

The Ricoh Pro™ C5200s and C5210s are the best partner for you. They offer value-added printing with the latest technologies. High image quality and broad media handling help you expand your business, whilst easy operation is key to promote in-house printing.

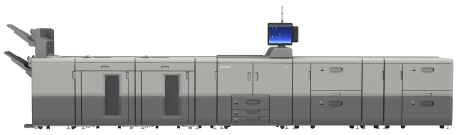

- Extremely high image quality
- Broad media support
- Easy to use design
- Maximum uptime
- Small footprint

- Print speeds run at 85 or 95ppm (A4).
- Full engine speed maintained at all paper weights.
- Auto duplex long sheet printing up to 700mm. Simplex up to 1260mm.
- Trained operator replaceable units for ultimate uptime.
- Easy jam removal with animated guidance and LED lights.
- To maintain productivity, paper and toner can be replenished on the fly.
- Tray switching, twin stackers and print scheduling feature support out of hours production.

Pro™ C7200 / e / S / X / SX /SL
Pro™ C7210 / S / X / SX

Ricoh's new production printers produce repeatable colour output with a look and feel that is comparable to offset. The imaging system employs VCSEL technology (vertical cavity surface emitting lasers), ultra-fine PxP chemical toner and an oil-less fusing system to produce beautifully rendered outputs. The PxP toner has a wide colour gamut, enabling the printers to produce vivid lifelike colours with smooth tonal gradation.

- Print quality that is comparable to offset.
- Vivid lifelike colours, smooth tonal gradation and fine lines.
- Low toner pile height minimises glossiness.
- Precise front/back registration with added automatic quality control.

Production printing operations require reliable and productive technology that allows you to produce high quality print outputs at an affordable cost. Bring more of your print in-house and gain more control over your print outputs.

B&W & Colour Print:
85/90 PPM
Resolution: 2,400 x 4800 dpi

Pro™ C9200 / Pro™ C9210

The Pro™ C9200 Series can integrate into a hybrid workflow and delivers greater flexibility, superb print quality and higher productivity with faster turnaround performance. It sits alongside existing offset technology to provide variable data and greater media handling capability. This makes high volume jobs cost effective and highly efficient whilst introducing personalisation and customisation options simply not available with offset technology.

- Exceptional print quality
- Maximises productivity
- Outstanding durability
- Extensive media capabilities

B&W & Colour Print:
115/135 PPM
Resolution:
Print: Max 2,400 x 4,800dpi VCSEL
