RICOH

OFFICE EQUIPMENT: **WIDE FORMAT**

Ricoh presents a complete line-up of productive wide format, multi-function document centres that offer scanning, and copier options with finishing capabilities

MP W6700SP

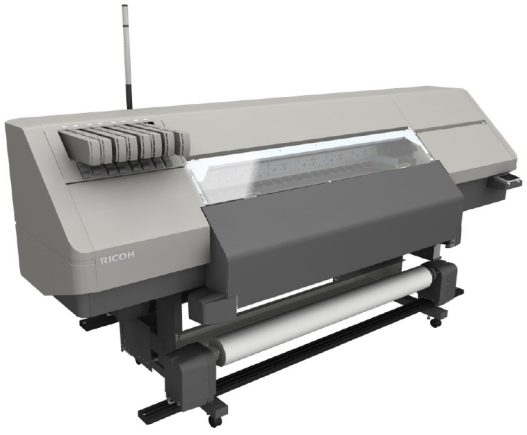

The ultimate light mono printer for low and mid-range users. Want high-speed output, high resolution and high reliability? Then this new digital multi-function monochrome printer has been created for you. The one device enables you to print, copy and scan in colour. You can also archive to improve document security and storage plus quickly and easily retrieve archived documents.

- High-speed monochrome printing at 6.7 pages/minute (A1 horizontal)
- Scan to Media and Media to print with features integrated in the one machine.
- The new USB/SD slot allows data to be directly saved – no PC required
- The smallest footprint, compact in design and operation

B&W Print: 6,7 PPM
Resolution: 600 x 600 dpi

Max Print Speed: 4 Colour print speed - 46.7m/h (502.5 sqft/h)
4 Colour + W print speed - 24.9m/h (268.0 sqft/h)
Resolution: 900-1200 dpi

Pro™ L5130 / Pro™ L5160

Benefit from a wider colour range that simply cannot be achieved with traditional CMYK 4– colour printing - the addition of orange and green inks mean that you can reproduce vibrant pastel colours, which are perfect for colourful display printing. Whilst the ability to use white ink produces even more vivid colour on transparent materials such as window film. Productivity is further enhanced by the fact that drying is almost instant.

- Print on almost anything
- Durable inks for inside and out
- Less drying time
- Eco-friendly
- Low energy power consumption

MP W7100SP / MP W8140

The Ricoh Aficio MP W7100 and MP W8140 allow for fast printing even as you capture, share and save all of your day-to-day hard-copy document processes—color markups, edits, penciled-in changes and asbuilts— into your ever-changing project workflow. The Ricoh Aficio MP W7100 and MP W8140 Wide Format Digital Imaging Systems are truly high productivity tools that can help you work smarter, collaborate easier, share faster and finish your projects on-time and on-budget.

- Color LCD touch-panel interface makes walk-up operation easy and intuitive
- Built-in color scanner captures color markups in-house
- Original output tray holds up to 50 D-size originals for minimal interruptions when making copies
- Minimize system footprint with the embedded color scanner

B&W Print:
MP W7100: 10 PPM
MP W8140: 14 PPM

Resolution:
600 dpi

MP CW2201SP

Designed for CAD/GIS and Graphic Arts applications, the Ricoh MP CW2201SP has enhanced speed and image quality to help you capture more Mono EP volume and increase colour productivity. While advanced GEL-JetTM waterproof ink technology and innovative features such as the smart operation panel and auto nozzle detection, help boost your efficiency to stay highly competitive.

- Print, copy and scan – all in full colour
- Delivers high-quality colour output fast
- Makes colour output affordable
- Innovative GEL-Jet waterproof ink technology
- Superb line accuracy, smudge-free and UV-resistant

B&W Print: 3,8 PPM
Resolution: 600 x 600 dpi

UV FLATBED PRINTER

Value - added printing: With three different ink sets to choose from you can select the ideal ink type for your application, media and usage needs.
RICOH Pro UV Ink GP120: Superior Color Gamut ink (Graphics)
RICOH Pro UV Ink DG130: Versatile ink for high adhesion and wide Color Gamut ink

Pro TF 6250

With speeds up to 116m2/h, our new Ricoh Pro TF6250 UV flatbed printer lets you tap into the profitable sign and graphics market by producing products fast and efficiently on substrates up to 11cm thick. Industry - leading productivity and versitility helps you expand your client base with applications for emerging markets. This includes short - run packaging, promotional products, and industrial and interior décor. Low operating costs, superb image quality and exceptional reliability enable you to go for ambitious growth plans fuelled by high-profit potential.

- Capacity for up to 110mm media thickness
- Up to 100m2/h in high productivity 4C configuration
- Integrated vacuum table with pin registration
- Specially designed end guards have sensors for operational safety
- Highly reliable Ricoh print heads
- Energy saving LED lamps
- Newly developed UV ink
- Front access to maximise operator productivity

Pro™ T7210

The new Ricoh Pro™ T7210 UV flatbed is the ideal platform when printing onto a wide range of substrates requiring flexible ink with excellent adhesive properties. Productivity is further enhanced with the integrated vacuum table with pin registration that allows easy positioning of materials that are held firmly in place whilst printing. Full bleed printing eliminates the need for unnecessary trimming further reducing the time to dispatch the finished job.

- Capacity for up to 110mm media thickness
- Up to 100m2/h in high productivity 4C configuration
- Integrated vacuum table with pin registration
- Specially designed end guards have sensors for operational safety
- Highly reliable Ricoh print heads
- Energy saving LED lamps
- Newly developed UV ink
- Front access to maximise operator productivity

Media: Rigid materials: Acrylic, PETG, PC, PVC, Glass, Aluminium, Steel, Wood, MDF etc.
Resolution: 635 x 1,800 dpi
